1. ***Advanced Robotics*** does not accept the paper that has been or will be published in any other journals of any languages as well as the paper which is under consideration by another journal of any languages.
2. In the event that the paper was or will be published in proceedings and is necessary to get permission for publishing it in ***Advanced Robotics***, authors are responsible for consulting the organizer of the proceedings before publishing the paper in ***Advanced Robotics***.
3. Details of the categories are (1) Full papers: Research reports with the originality, including reports on experiments, development of theory, or technological application feasibility, (2) Short papers: New technological ideas and approaches calling for quick announcement, and (3) Review papers: Systematically compiled survey in the particular field, not limited to achievements of the specific research
4. Regular papers (full or review papers) are normally 16 journal pages in length (apprx. 8000 words) or shorter, and short papers are no more than 8 journal papers (apprx.4000 words). An absolute maximum is 20 pages and 10 pages respectively. There will be no page charges generally; however, an overlength paper may be charged for the publication.
