東京大学宇宙線研究所のスーパーカミオカンデや KAGRA があり、映画『君の名は。』のモデルとなった町の高校です)

Hida-Kamioka High School is the smallest full-time high school with 205 students located in Kamioka-cho, Hida, which is known as the home of "Super-Kamiokande", the world's largest underground Neutrino detector attracting attention with Nobel Prize in Physics of Dr. Kajita.

School name: Hida-Kamioka High School

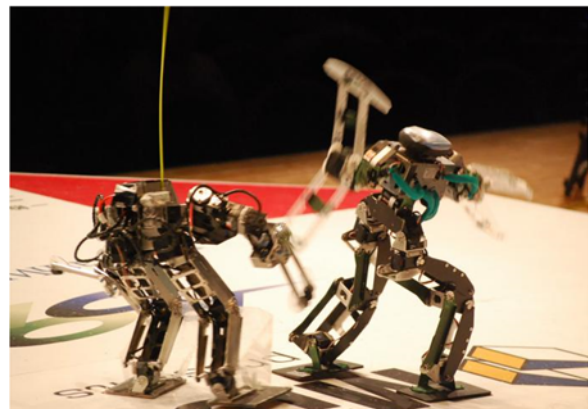

Neutrino&KAGRA-Series

These robots were named Neutrino after the great discovery of neutrino, and are famous among the robot builders all over Japan.

ROBO-ONE

We are one of the leading teams in ROBO-ONE tournament, a martial art meet of the bipedal robots to select a top of the bipedal robots all over Japan.

I n t e r n a t i o n a l R o b o t

We have participated in an International Robot Contest held in Korea as a member of the Japanese team for 4 years in successions.

We won the first prize in the three fields this year: track and field, martial art and curling.
