PR message: “The formation of world-class 18-year-olds”
(世界に通用する 18 歳)_

Our school, Ritsumeikan Keisho is a superior school in the field of global activity and science project. For example, Ministry of Education, Culture, Sports, Science and Technology (MEXT) selected Keisho as Super Science High school (SSH) and Super Global High school (SGH). Specially, MEXT praised Keisho’s activity on SSH that “Great jobs and Expected more development”.

When students are sophomore, they go abroad (such as the U.S.A., Thailand, Galapagos, Poland and so on) for about one week to learn The World. Through this program, they recognize differences between Japan and another country well, and feel attractions of the world.

School name: Ritsumeikan Keisho High School

Keisho has a lot of foreign students. They are from the U.K., the U.S.A., Germany, China, Egypt, and so on. For Japanese students, it is also fantastic to interact with foreign students.

Our club, Nature Science Club, has three groups. These are Physics Group, Biology Group, and Earth Science Group. Some of our research are “Why the Blue Pond looks blue”, “Making Multicopter and Rocket to search universe”, “Making the Rock Specimens”, and so on. We were given the silver price at the science competition.
