PR message: NZUNA SPIRIT develops one's individuality.

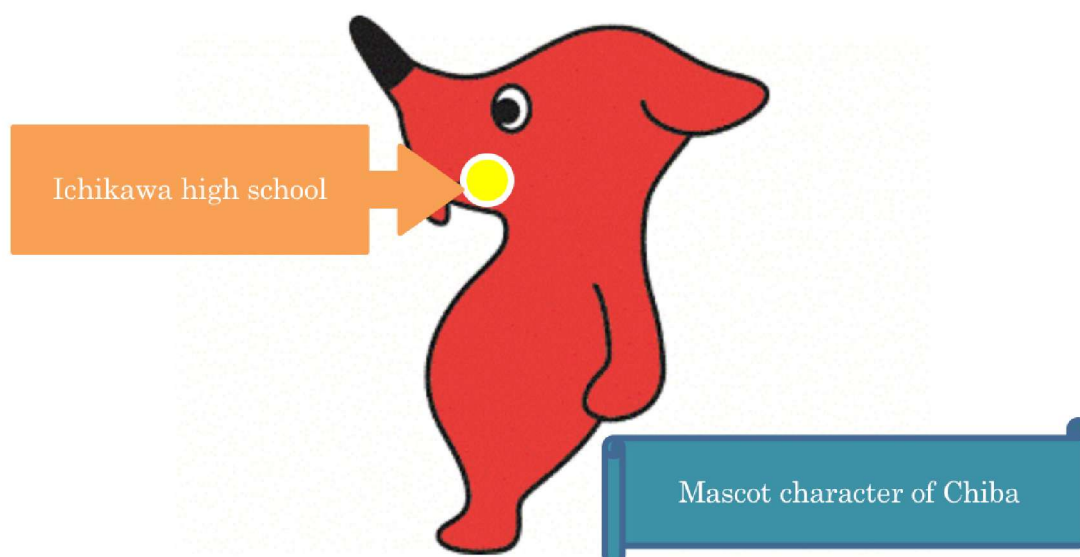

“Ichikawa High School” is located in Ichikawa city, Chiba, Japan.

Our school is recognized by Ministry of Education, Culture, Sports, Science and Technology (for short MEXT) as a Super Science High school (SSH).

When we are second grade of the high school, they who choose science are given time to study twice a week.

Students can use this time freely, sometimes they go to the center and search for materials or search on a computer.

We have 7 laboratories to learn physics, chemistry, biology and earth science and we can do many kinds of experiment.

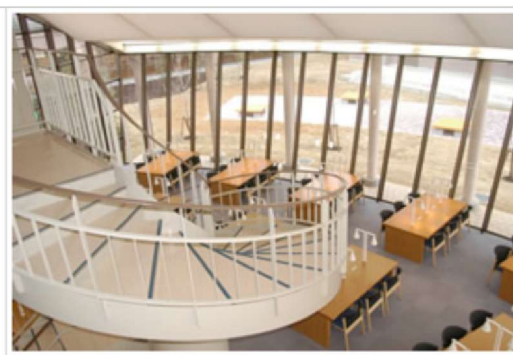

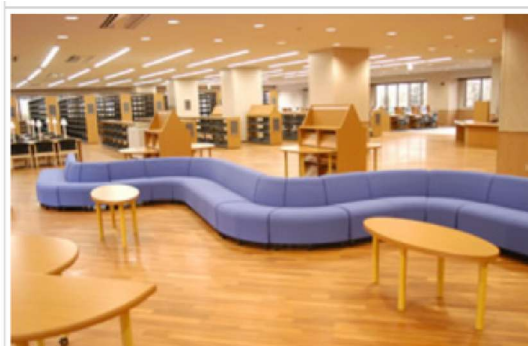

Ichikawa High School's institutions are very beautiful.

We have a big concert hall called "Kunieda Hall" .

We have a big library called "The Third Education Center".

It recommend us The Third Education. This means "learn spontaneously" .

This library has over 12 thousands books, a wide range of books. Thanks to this library, we can cultivate ourselves.

Conclusion environment of Ichikawa is suitable for studying.

We hold "Saturday Course" several times a year. We invite university professors, researchers, corporate professionals, writers, artists as a lecturer.
